

How to validate an address in Aeries

- From **Pages**, Filter for **streets**.
- Select **Streets** from the Navigation list.
- Type the street name in **Enter street name to search** field. The results will display the school of enrollment by each grade.

The screenshot shows the Aeries 'Streets' validation interface. At the top, there is a search bar with '10' entered and a 'Go' button. Below the search bar is a table with columns: Streets, Range, and City. The table lists several streets, with 'E 10Th ST' selected. To the right of this table is a detailed view for '10Th ST' in Bakersfield, CA, showing the street name, number range (100 - 899), and direction. Below this, there is a table showing school enrollment for various grades (0 to 18) for the selected street. The table has columns for Current School Year and Next School Year. The enrollment is as follows:

Current School Year	Next School Year
PS Bakersfield City School District (0)	6 OWENS INTERMEDIATE (46) 13 (912)
TK Bakersfield City School District (0)	7 COMPTON JUNIOR HIGH (51) 14 Bakersfield City School District (0)
K OWENS PRIMARY (38)	8 COMPTON JUNIOR HIGH (51) 15 Bakersfield City School District (0)
1 (912)	9 (912) 16 Bakersfield City School District (0)
2 OWENS PRIMARY (38)	10 (912) 17 Bakersfield City School District (0)
3 OWENS PRIMARY (38)	11 (912) 18 Bakersfield City School District (0)
4 OWENS INTERMEDIATE (46)	12 (912)
5 OWENS INTERMEDIATE (46)	

At the bottom of the interface, there are checkboxes for 'Auto populate Next Year?' (checked) and 'Auto populate higher grades?' (unchecked). Below these are 'OLD FIELDS' for (Elementary School), (Intermediate School), and (High School), all showing 'Bakersfield City School District'.
